

Project Maverick

Where entrepreneurs
find their partners
for success

IIMU

भारतीय प्रबंध संस्थान उदयपुर
Indian Institute of Management Udaipur

About Maverick

Project Maverick is the first program by an Indian B-school which is aimed to be a one-stop destination for the right talent, specifically for the fast growing start-ups. The students are hand-picked based on their keen interest to build their careers in start-ups, or work towards entrepreneurship. Each and every student is provided with specialized training to hone the necessary skills required to be the best-possible fit for the unique culture of start-ups.

The students will initially engage with start-ups as interns during April - June 2021 (Full time) and can help start-ups in multiple domains such as Gaining Funding, Product development, Research and Analytics, Digital and trade marketing, Branding, Strategy and Pricing, Valuation and Financial Modelling, so that the students are prepared for the wide array of challenges that the ever-changing climate of start-ups might pose. Our objective is to provide start-ups with a platform for engagement with the students through this internship, which could be the inception of a long term relationship between them if both the parties mutually agree to work together in the future.

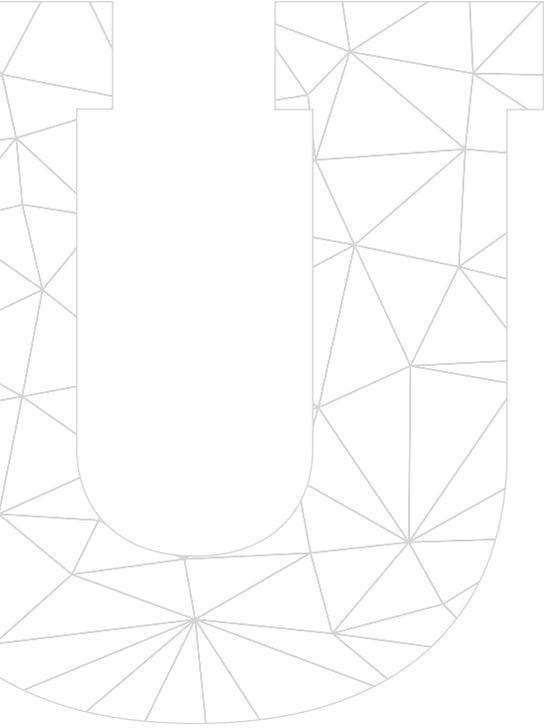

Why Maverick

We understand you, as a founder of fast growing start-up, are looking for talent who can stay, can build your business with you and start contributing from day one.

Only Maverick offers talented students of IIM Udaipur who are not only interested in building career in start-ups but also can start contributing from day one.

Because they are selected based on their keen interest to work for start-ups, rigorous selection process and are trained hard in multiple domains such as Understanding customers, Developing brand positioning, Product development, Business strategy & Modelling and Scaling.

About IIM Udaipur

IIM Udaipur, a second-generation IIM, is one of the fastest growing management institute in the country. We have benefited from the legacy built by previous IIMs, and are proud of setting new benchmarks in the field of management education. IIMU is well on its way and aspires to become a globally recognized management school by 2030. With an accomplished faculty, a flourishing research ecosystem, IIMU is bringing a unique perspective by forging strong bonds with our corporate partners and is also able to champion our core values of excellence and integrity. An underlying priority at IIMU is to provide a transformational journey to students to expand their horizons so they are prepared to have an impact on the world of business and in society at large.

FAQs

▶ What is special about this program and how is this program different from normal summer internships provided by other B-schools?

This program is only for those students who want to build their careers in start-ups. All the students who have registered for this program are the students who understand what it takes to work in start-ups and will join your firm if given the opportunity. Students will undergo special training module on multiple domains such as Understanding customers, Developing brand positioning, Product development, Business strategy & Modelling and Scaling. During their internships, IIMU will assign two mentors to each student who can help deliver more and channelize their efforts.

▶ How much stipend companies need to pay during the internship to one candidate?

The minimum stipend amount for 2 months of summer internship is 20K per month.

▶ How much do companies need to pay if they want to hire the students after their internships, so the companies can ensure that selected students do not sit for any other company?

Our last year's average was 13.85LPA, Anything in that range should work.

▶ Which are the areas where students can help us?

Gaining funding, product development, research and analytics, digital and trade marketing, branding, strategy, pricing, valuation and financial modelling are the areas students can help the companies with.

▶ How to enrol for Project Maverick?
